Catcord – Admin Quickstart

One-page setup and operations checklist for Discord server administrators.

Permissions

Require: Send Messages, Manage Webhooks, Read Message History. If using threads: Create Public Threads.

Map Channels

/langrelay_set channel:#german language:DE
/langrelay_set channel:#english language:EN
/langrelay_set channel:#french language:FR

Choose Provider

/langrelay_provider provider:deepl
or
/langrelay_provider provider:openai

Toggle Options

/langrelay_replymode state:on
/langrelay_thread_mirroring state:on

Verify

/langrelay_status

Access Control

/langrelay_access_status
/langrelay_access_add_role role:@Moderators
/langrelay_access_remove_role role:@Moderators
/langrelay_access_add_user user:@Alice
/langrelay_access_remove_user user:@Alice
/langrelay_access_clear

Troubleshooting

Nothing mirrored → check mappings & permissions.
Translation fails → verify keys/provider.
Threads not mirrored → ensure thread permission.
Useful: /translate, /detect, /languages, /ping, /about
